

TANSY!

- Trafficante is in HK, everything points to his attendance in the summit at the Continental by the end of the week. We don't have anything definitive, but I'll tell you when he's booked the flight to Saigon.

- On the Continental itself: it's popular. Frequented by elites and the journos that come with that. Most importantly, doubles as a "neutral" meeting spot for criminal factions with interests in Saigon.

- Important: the Corsicans handle logistics (bringing in and moving the product), but the Teochew triad in Cholon is the real big dog in town.

- We don't have much on the triad besides an alias: "Mad Horse". Ops seem airtight, and they're rolling in GI and export money.

- Both the Corsicans and the Chinese have people in the ARVN and VNAF. We know Col. Phan Phung Tien is VP Ky's bagman. Some other names we know are dirty: Generals Vy, Thi, Dzu... list just keeps going

- Corsican in-house cook: nicknamed "Le Docteur" or "il Sorcio" (Mouse). Loc narrowed down to districts 1 or 3. Appears to work the monsoon season only, so he's active now.

- Stay in touch!
