LAZARETTO SESSION 1

August 8, 2026

September 6, 1968 - September 7, 1968

Chandu: *LAZARETTO*

Chandu: *SEP 06 68 - 2300H*

Chandu: *Hurlburt Field Air Force Base, FL.*

Chandu: *Summer's coming to an end, and it's not smoldering in Florida anymore.*

Chandu: *The 7th SOS guys have been training together for the better part of the last 18 months. MacAllister arrived three weeks ago.*

Chandu: *Everyone— what's going through your minds right now? You've been rehearsing HALO drops, and what's more, you've been refamiliarizing yourselves with Soviet kits.*

MSG Cillian F. MacAllister: I'm distracted by comings and goings of romance. I don't really care about these guys.

Chandu: *Everyone does know, besides the fact that you're a recent arrival, that you came "straight from Vietnam" with the 5th Special Forces Group, Airborne. You're all professional peers, branch rivalries notwithstanding.*

TSgt. Andrew S. Schmidt: Obsessively checking and re-checking my gear, the training and the procedures. First real deployment beyond listening into radios in Germany.

TSgt. Rafael A. Serrano: Find a job you enjoy doing, and you'll never work a day in your life. I hope I get to play with my ordnance toybox.

MSgt. Walter H. Givens: Givens is smoking a thick cigar, looking straight-faced at the chalkboard. It's another day at the office for him.

Capt. Nathaniel J. Rourke: There's a reason we're using fultons. I wonder which poor schmuck with a blown cover we're extracting this time.

SSgt. Isaiah M. Cole: Cole is triple-checking his medical supplies. Little else to be said.

Chandu: *Your quiet wait soon comes to an end as the personnel door for the hangar comes open. Three people come walking through it.*

Maj. Gen. Reginald Fairfield: "Gentlemen," he adjusts his tie. "Apologies for the wait. Traffic."

Maj. Gen. Reginald Fairfield: "Are we ready?" He nods at Rourke.

Capt. Nathaniel J. Rourke: Rourke gives a quick wave back and nods.

TSgt. Andrew S. Schmidt: Schmidt uncomfortably shifts and straightens up when he sees Fairfield walk into the room.

Sp. Asst. Ruth C. Martí: Martí's just leaning on the equipment table, hands folded, nervously looking at Fairfield.

MSG Cillian F. MacAllister: She looks hot in that suit. I'm just thinking of five minutes in the bathroom.

Maj. Gen. Reginald Fairfield: "Right." He pushes the chalkboard away. "We've assembled here for a reason. The Puerto Cabezas sortie is a go."

Maj. Gen. Reginald Fairfield: He turns the chalkboard, displaying its off-face. Several pictures are clipped onto it.

Maj. Gen. Reginald Fairfield: "Your primary objective; Dr. Günther Frank. Nazi motherfucker kept company with Mengele and whatnot. He was absolved and brought on board by the CIA through Operation PAPERCLIP.

Maj. Gen. Reginald Fairfield: Frank is currently occupying a facility accessory to the National Guard's Puerto Cabezas logistics hub— publicly known as 'Supply Magazine No. 4'."

Maj. Gen. Reginald Fairfield: He looks around, somberly. "The operational priority is to deny further possession of Dr. Frank to the enemy. Extract him alive if it fits the operational parameters on the ground, kill him on the spot if not."

Maj. Gen. Reginald Fairfield: "I am not interested in a prolonged negotiation, and I am not interested in him leaving that facility in anybody else's custody."

Maj. Gen. Reginald Fairfield: "The research staff under MAJESTICs' employ are considered compromised. You are not there to arrest them nor bring them home. If they are still in the facility when you reach them, you take them out."

Maj. Gen. Reginald Fairfield: "As for the facility..." He points at the second picture.

Maj. Gen. Reginald Fairfield: "The insertion point— the surface-level magazine intake. We've also got an aerial reconnaissance picture of what's further down, but it remains inaccessible through rappel. Securing the magazine's entry checkpoint is a necessity."

Maj. Gen. Reginald Fairfield: "Your insertion aircraft is a MC-130H Combat Talon signed off on a training exercise under my authority as SACSA. It'll put you out well clear of the target and remain offshore after the drop. Once you are on the ground, it is not your gunship. It is a one-way extraction ticket through your STARS system— and that is after you've managed to evacuate the facility's immediacy on foot."

Maj. Gen. Reginald Fairfield: "Schmidt has your communications schedule," he points at Andrew. "It'll open its first scheduled listening window thirty to forty miles offshore at approximately eight thousand feet. Keep transmissions short. Identification, mission status, nothing else."

Maj. Gen. Reginald Fairfield: "You've also got ground support. I want that to be understood correctly..."

Maj. Gen. Reginald Fairfield: "A small FSLN element has been put in position against another part of the depot. They believe they're carrying out their own operation against the National Guard. They do not know who we are, who Frank is, or what our mission is."

Maj. Gen. Reginald Fairfield: "Arrangements have been made for a rendezvous with this element five miles away from the AO. You'll hike there after insertion, provide the verification code "Berezka", and discuss any particulars with them."

Maj. Gen. Reginald Fairfield: "Specifically, when they should begin their attack. It'll buy you a distraction for exit."

MSG Cillian F. MacAllister: I'm gonna interrupt. "General."

Maj. Gen. Reginald Fairfield: "Go ahead."

MSG Cillian F. MacAllister: "We speak English to them looking like this?"

Maj. Gen. Reginald Fairfield: "Schmidt is the Russian interpreter, Serrano for Spanish. He can fake an accent."

Maj. Gen. Reginald Fairfield: "Keep it short. They think you're in Nicaragua to assist their revolution against the Somozas. They'll lead you to your entry point at the magazine, then disperse to their main force."

TSgt. Andrew S. Schmidt: "Will be done, sir."

Maj. Gen. Reginald Fairfield: "It is imperative that silence be held up until you are underground," he nods. "If the depot is alerted before you are through the magazine checkpoint, the underground installation can seal itself making our operation finished before it gets started. So unless the approach goes bad, let the Nicaraguans wait until the moment that you seriously need fireworks."

MSG Cillian F. MacAllister: He talks under his breath. He doesn't really have anything more to lose at this point. "Bullshit... We don't need some spear chucking irregulars."

Maj. Gen. Reginald Fairfield: He ignores the remark. "The subterranean compound. We've got little intel on it. We know there are three sublevels under the ground-floor intake. You'll have to search for Frank, his work, and his staff through them."

Maj. Gen. Reginald Fairfield: "As an aside, you've enough explosives to level the facility if placed appropriately. Consider it a side objective. Your extraction and Frank's—unless he proves uncooperative—remains crucial."

Maj. Gen. Reginald Fairfield: "Any questions need answering so far?"

TSgt. Andrew S. Schmidt: "Sir, how many National Guard troops are on the ground? Are they providing security inside the facility itself too?"

Maj. Gen. Reginald Fairfield: "Expect forty to fifty National Guard regulars at the logistics hub, some of them asleep, skeleton crew up during nighttime. It's irrelevant as long as you stick to the planned infiltration route—the FSLN will guide you to it."

Maj. Gen. Reginald Fairfield: "You sidestep the hub entirely, and go directly for the magazine."

TSgt. Andrew S. Schmidt: Schmidt nods rapidly.

TSgt. Andrew S. Schmidt: This is a question for myself but what are our callsigns and frequencies

Chandu: *Keep it simple. "Alpha" for the ground team, "Talon" for the Talon.*

Maj. Gen. Reginald Fairfield: "Captain Aulbuer here will handle communications and mission control from the Combat Talon while you're on the ground. Check in during the comms windows, notify him once you've gotten started with your extraction down the ridge. The plane will get in position at the extraction point."

Capt. Solomon Aulbuer: He nods.

Maj. Gen. Reginald Fairfield: "...We can't go without addressing the elephant in the room."

Maj. Gen. Reginald Fairfield: "You've, over the last few months, been familiarizing yourselves with each other and with the Soviet kit you're currently wearing. You've been training for a high altitude, low opening insertion. You're aware that you are essentially the pioneers of this insertion method."

Maj. Gen. Reginald Fairfield: "This operation is like no other— something that hasn't been seen since the glory days of the OSS, and the glory days of P4. You are wearing Soviet kit, and will coordinate with Sandinista elements, because we intend to attribute any and all deaths of American personnel at Puerto Cabezas to well-planned and well-supplied FSLN action on governmental forces."

Maj. Gen. Reginald Fairfield: "Reports of Soviet Spetsnaz on the ground will be minimized by our assets in the Nicaraguan government, but the falloff from this operation will remain advantageous to American policy in Central America. Nicaragua will receive further U.S. assistance in the matter of the ever-spreading Sandinista influence."

Maj. Gen. Reginald Fairfield: "This all hinges on the *maskirovka* holding up. Should any of you be wounded or otherwise hit in action, *full* team extraction remains the utmost priority."

Maj. Gen. Reginald Fairfield: "Be sure not to let it happen in the first place."

Maj. Gen. Reginald Fairfield: "Anything else?"

Capt. Nathaniel J. Rourke: Rourke just sits quietly.

Maj. Gen. Reginald Fairfield: "Good to go. Aulbuer?" He nods at him.

Capt. Solomon Aulbuer: "Plane'll be ready in ten, General." He turns to the group. "Expect you guys there within twenty minutes."

Capt. Solomon Aulbuer: He makes off.

Chandu: *If anyone's got anything to say before heading out and boarding the plane, now's the time.*

MSG Cillian F. MacAllister: Is the General standing there?

TSgt. Andrew S. Schmidt: Stone cold.

Chandu: *He's collecting the pictures and stuffing them in a briefcase.*

MSG Cillian F. MacAllister: I wanna side eye what's in it.

Chandu: *Hit an Alertness check.*

MSG Cillian F. MacAllister: MSG Cillian F. MacAllister rolls **Failure** -> 80 (Rolling Alertness Target: 60%)

Chandu: *You don't get a clear look at whatever silvery object you caught a glimpse of as he stuffed the pictures inside.*

Chandu: *He's off to groundside mission control.*

MSG Cillian F. MacAllister: Although I'm fired from the army I still can't afford to fuck with this guy. I'll just let him walk and go up and away towards the outside, nodding at Marti to come.

Chandu: *Everyone gets their stuff ready off the table and heads to the plane as you step to the side.*

MSG Cillian F. MacAllister: "If there is a scoop, you need to give it to me now."

Sp. Asst. Ruth C. Martí: "There's no scoop, we're just launching a highly illegal operation on our guys' own black site."

Sp. Asst. Ruth C. Martí: "It's the ones I've been telling you about. Campbell, remember?"

MSG Cillian F. MacAllister: "Look, we're no spring chickens. There is a solid chance this is it for me. I'm being serious."

Sp. Asst. Ruth C. Martí: "Frank's been experimenting on those fucking things you saw back at Charrière's plantation. Human experiments."

Sp. Asst. Ruth C. Martí: "This operation wasn't cleared by the Executive Committee." She clears her throat.

Sp. Asst. Ruth C. Martí: "Fairfield's acting on his own."

MSG Cillian F. MacAllister: "And these guys have no idea, right?"

Sp. Asst. Ruth C. Martí: "No, well, Schmidt is the only rookie by our standards. The others know what they might get to see."

Sp. Asst. Ruth C. Martí: "I've gone through their files. You're in good company."

Sp. Asst. Ruth C. Martí: "I can't deny that this is fucking insane compared to what you typically got up to in Laos."

MSG Cillian F. MacAllister: "Alright. Thanks. I need you to hold onto this for now. I don't want to see it being sold around in some flea market." He takes off his expensive watch and places it in her hand.

Sp. Asst. Ruth C. Martí: She takes it in her hand and looks at it for a few moments.

Sp. Asst. Ruth C. Martí: "If anything happens— if you get separated or somehow miss the extraction window, stay in the area. You've got your survival radio."

Sp. Asst. Ruth C. Martí: "And, please..." she rubs the back of her neck. "...nevermind."

MSG Cillian F. MacAllister: "Alright then. No need to make this harder than it already is. If I come back, we'll party. If I don't, it's been a real game of cat and mouse." I don't like tearjerker theatrics, it's time to go.

Sp. Asst. Ruth C. Martí: "Give it your best." She stuffs her hands in her pockets and watches you walk out towards the plane.

MSG Cillian F. MacAllister: I raise a hand with two fingers extended in a "peace" sign without turning my back as I head towards the plane.

Chandu: *LOADING...*

Chandu: *TWO HOURS LATER - INTERNATIONAL AIRSPACE*

Chandu: *The launch sequence was mostly standard, save for all the fitting required to stuff the Soviet inner attire into the jumpsuit shell. You're all familiar with the workings of an airplane deployment, though HALO is a newer invention.*

1Lt. Nicholas Wright: He walks back and forth in front of the gate.

1Lt. Nicholas Wright: Then he turns back and gets in front of you all.

1Lt. Nicholas Wright: "You guys nervous?"

TSgt. Andrew S. Schmidt: "Yeah. It is what it is though."

Stars. Melnikov (MacAllister): "Look at what's rigged to my back, do I look like I'm about to lose my virginity?"

Stars. Melnikov (MacAllister): He nods towards the double tubes.

1Lt. Nicholas Wright: "Alea iacta est, bro."

1Lt. Nicholas Wright: "We're ten minutes off. Put on your masks."

Stars. Melnikov (MacAllister): "Lieutenant."

1Lt. Nicholas Wright: "Yup."

Stars. Melnikov (MacAllister): "What do they call a burger in Viet Nam?"

1Lt. Nicholas Wright: "Surprise me."

Stars. Melnikov (MacAllister): "They don't call it anything, they don't know what the fuck that is."

Stars. Melnikov (MacAllister): He stares, deadpan.

Serzh. Sokolov (Schmidt): "You snake eaters are weird, man."

1Lt. Nicholas Wright: He shakes his head. "It's sad, you know."

Serzh. Sokolov (Schmidt): "Should have joined a real service."

1Lt. Nicholas Wright: "It's sad how the highest form of technology some of those people know are guided bombs and the smell of napalm."

1Lt. Nicholas Wright: "Guess that's their fuckin' lot."

Stars. Melnikov (MacAllister): "Ever seen a man merge with a fish?"

Stars. Melnikov (MacAllister): "We're about to. All of us."

Serzh. Sokolov (Schmidt): "Huh?"

Stars. Melnikov (MacAllister): He just laughs like a freak.

Chandu: *Schmidt: for reference, you know what he's talking about, to some degree. But you've only READ about it.*

Chandu: *You and the rest of the team know about the incident at Innsmouth some decades ago, of course.*

Serzh. Sokolov (Schmidt): "Shit.... was hoping I would not see that tonight."

1Lt. Nicholas Wright: "You guys blow those fuckers up and come back in one piece." He turns to the platform and brings his hand up to his ear.

1Lt. Nicholas Wright: "OXYGEN ON!"

Stars. Melnikov (MacAllister): This is gonna be fun.

Serzh. Sokolov (Schmidt): Schmidt turns a tube on his suit before falling in line.

1Lt. Nicholas Wright: He holds a hand up and looks outside.

Kapt. Romanov (Rourke): Rourke twists a valve then gives the OK sign.

Chandu: *It's a pretty sight. A sea of cloud is all you see under the clear night sky.*

1Lt. Nicholas Wright: He raises both arms up and rolls them towards the open platform, giving you the all-clear.

Chandu: *Everyone's going to hit a BLIND Paradrop/HALO roll.*

Chandu: *Check your sheets, scroll down.*

Chandu: *Parsed, and LOADING.*

Chandu: *The ground becomes visible as you open your parachutes in unison. Whether you land at your appointed spots, however...*

Chandu: *Rourke. You went way off.*

Chandu: *You're hanging up between two trees now.*

Chandu: 4

Capt. Nathaniel J. Rourke: Capt. Nathaniel J. Rourke rolls 1d10 -> 5 (Draws a result from the Random Hit Location d10 table)

Capt. Nathaniel J. Rourke: Capt. Nathaniel J. Rourke rolls 1d6 -> 5 (Draws a result from the Torso Minor Wounds (3, 4 Dmg) table)

Capt. Nathaniel J. Rourke: "Shitfire," Rourke says in the tangle.

Kapt. Romanov (Rourke): Condition Changes Restrained

Capt. Nathaniel J. Rourke: Can I cut myself down?

Chandu: *You're a little indisposed. Try with a DEX roll at -20%.*

Kapt. Romanov (Rourke): Kapt. Romanov (Rourke) rolls **Success** -> 21 (Rolling DEX Target: 30% (50%-20%))

Kapt. Romanov (Rourke): Condition Changes Restrained

Chandu: *And you're up. There's more news, though, as you get your gear off.*

Chandu: *Nicaraguan National Guard troopers. They must've been out on patrol. No way to know how much they've seen.*

Chandu: *You've got to survive for...*

Chandu: 3

Chandu: *THREE rounds.*

Capt. Nathaniel J. Rourke: The best move is to probably get deeper into the shrubbery and hide.

Capt. Nathaniel J. Rourke: What have we got for cover?

Chandu: *As much as you see around you. The best cover and concealment appears to be...*

Chandu: *Behind that fallen tree and cart.*

Capt. Nathaniel J. Rourke: I'm going to try and sneak under that tree and get under that cart.

Chandu: *The lights are inaccurate, ignore them for the time being. Map is to scale.*

Chandu: *Hit the MOVEMENT HELPER.*

Chandu: *Don't factor the terrain in.*

Capt. Nathaniel J. Rourke: Movement SNEAK Regular?

Chandu: *Yup*

Capt. Nathaniel J. Rourke: Foot movement type: Sneak.

GN Rifleman (1): Foot movement type: Walk.

Capt. Nathaniel J. Rourke: Rourke crouch speedwalks as far as he can, getting ready to drop into the grass at a moment's notice.

Chandu: *He's going to hit an ALERTNESS check against your STEALTH here.*

GN Rifleman (2): GN Rifleman (2) rolls **Failure** -> 56 (Rolling Alertness Target: 50%)

Chandu: *Hit STEALTH, public.*

Kapt. Romanov (Rourke): Kapt. Romanov (Rourke) rolls **Success** -> 5 (Rolling Stealth Target: 50%)

Chandu: *You're unSEEN.*

Capt. Nathaniel J. Rourke: Rourke keeps it moving as he grabs a stone along the way.

Chandu: *Yes— your kit is with you, but you'll need time to unpack it and get it ready. Meaning your gun is currently inaccessible.*

Chandu: *That's valid. Proceed.*

GN Rifleman (1): They say something in Unknown but you cannot understand it. Cues: Loud voice. Neutral tone. Rapid cadence. Animated delivery. Hostile demeanor. Expressive gestures.

Chandu: *They're looking at the mess of ropes that're snagged on the trees.*

Capt. Nathaniel J. Rourke: Rourke will be crawling under the tree to take cover by the wheel. He's thinking that an errant rock hitting the tangle of jungle leaves will get these dumb fucks chasing a phantom in the other direction.

Chandu: *Let's hit a LUCK roll for having made any noise while doing that.*

Chandu: *That's just a 1d2.*

Capt. Nathaniel J. Rourke: 2

Chandu: *Very lucky! They're still distracted by the ropes— but soon, they'll pick up the tracks.*

Chandu: *Round 4. You've survived.*

Chandu: *The rest of the team is ready, and has locked into your position.*

Serzh. Kuznetsov (Cole): Foot movement type: Jog.

Capt. Nathaniel J. Rourke: Do they see me?

Serzh. Kuznetsov (Cole): Serzh. Kuznetsov (Cole) rolls **Success** -> 59 (Rolling Athletics Target: 80%)

Chandu: *They do, they're wearing their NVGs. If vision becomes a problem, hit ALT to highlight tokens.*

Capt. Nathaniel J. Rourke: Rourke waves at them and signals to hold fire.

Stars. Melnikov (MacAllister): Cillian raises a hand signalling the middle one as he aims.

Serzh. Sadulaev (Serrano): How tall is this bush.

Chandu: *For recordkeeping purposes, hit the movement helper before committing to a move!*

Chandu: *And that's about hip-height.*

Serzh. Sadulaev (Serrano): Foot movement type: Walk.Special movement type: Enter partial cover.

Serzh. Sokolov (Schmidt): Foot movement type: Sneak.Special movement type: Enter partial cover.

Serzh. Sokolov (Schmidt): Going prone and taking aiming

Serzh. Sokolov (Schmidt): Just going prone then

Serzh. Sokolov (Schmidt): Condition Changes Prone

GN Rifleman (1): They've spotted the tracks— the mud is wet.

Stars. Melnikov (MacAllister): I'm keeping the bead on him, can Gromov do the same with the other.

Stars. Gromov (Givens): Givens is just taking aim at the furthest one, yes.

Stars. Gromov (Givens): Condition Changes Aiming

GN Rifleman (2): Since Rourke is hidden behind the cart, this won't be an Alertness roll unless he moves further.

Capt. Nathaniel J. Rourke: I want to hit the tree to the left to make them scramble in that direction.

Capt. Nathaniel J. Rourke: With the rock.

Stars. Melnikov (MacAllister): Can we just start shooting before that fracas?

Serzh. Sokolov (Schmidt): Get ya gun out

Chandu: *You've got only two aiming actions here. Let's make a concession here: you can spend this turn unpacking your suppressed pistol at no malus or consequence.*

Chandu: *Hit a DEX roll to get it ready within this turn, if that's what you wanna do.*

Capt. Nathaniel J. Rourke: Sure, whatever.

Capt. Nathaniel J. Rourke: No one cares about my genius. Fuck you.

Chandu: *Hit Unmodified DEX...!*

Kapt. Romanov (Rourke): Kapt. Romanov (Rourke) rolls **CRITICAL SUCCESS!** -> 11
(Rolling DEX Target: 50%)

Chandu: *You not only get to pull it out and get it ready, but you get to aim at a target of your choice, and if you wish, execute the firing shot and proc the others to shoot at the same time.*

Capt. Nathaniel J. Rourke: Who's already been aimed at?

Capt. Nathaniel J. Rourke: I take left and pop his ass.

Chandu: *Combat Helper!*

Capt. Nathaniel J. Rourke: Any body part aimed?

Capt. Nathaniel J. Rourke: or well

Chandu: *Givens and MacAllister will use it too for their respective shots. This is SHORT range.*

Chandu: *You can choose which bodypart.*

Chandu: *Everyone can at this stage.*

Capt. Nathaniel J. Rourke: Aim & bodypart: Aimed, head. Attachments: No attachment(s). Fire rate & range: Short range, single shot. Speed & size: ≤ Normal, regular.

Chandu: *Wow.*

Stars. Melnikov (MacAllister): Stars. Melnikov (MacAllister) rolls 1d6 -> 3 (Draws a result from the Head Critical Wounds (8+ Dmg) table)

Chandu: *Let's go one by one. Rourke hits his shot. 2x damage to head, 2x damage due to crit. That's 4x damage to the head immediately.*

GN Rifleman (1): GN Rifleman (1) rolls 1d6 -> 2 (Draws a result from the Head Minor Wounds (3, 4 Dmg) table)

GN Rifleman (1): GN Rifleman (1) rolls **Success** -> 47 (Rolling CON Target: 50%)

Chandu: *MOVING ON*

Chandu: *MacAllister's burst connects.*

GN Rifleman (1): GN Rifleman (1) rolls 1d6 -> 3 (Draws a result from the Abdomen Critical Wounds (8+ Dmg) table)

Chandu: *No check necessary. He drops down, dead.*

GN Rifleman (1): Condition Changes Dead

Stars. Melnikov (MacAllister): He's KO. Cillian will double tap him once in the skull.

Chandu: *You're out of combat. Dead checks are done, and you're ready to move.*

Stars. Melnikov (MacAllister): "You alright?"

Serzh. Sokolov (Schmidt): Can I call in

Chandu: *Rourke, you can finally get in gear by removing the CI - Special status and applying the MASKED identity.*

Chandu: *Yup, you can. Connecting...*

Capt. Solomon Aulbuer: "Talon's up. Come in, Alpha."

Stars. Gromov (Givens): Condition Changes Aiming

Serzh. Sokolov (Schmidt): "Talon, this is Alpha. Alpha is assembled and Oscar Mike. Three Bogies dispatched, how copy over?"

Stars. Melnikov (MacAllister): Cillian will drag the dead below the cart.

Stars. Melnikov (MacAllister): Searching them for keys in the process.

Capt. Solomon Aulbuer: "Good copy on **successful** drop. Continue to friendly RV point."

Serzh. Sokolov (Schmidt): "Wilco, Alpha out."

Capt. Solomon Aulbuer: "Next comms check in forty. Over 'n out."

Kapt. Romanov (Rourke): Do I have a map? Time to bust out the compass and navigate to location.

Chandu: *Hit a blind NAVIGATE roll, Rourke.*

Chandu: *As for Cillian's search...*

Serzh. Sokolov (Schmidt): Schmidt gets up from one knee and slots the phone back into the slot. He checks his watch before shouldering his rifle.

Chandu: *These poor men did not have a radio at all— it's likely that they were out on routine patrol, and whoever sent them expected the blaring gunfire to alert them of any encounters.*

Chandu: *No keys, nothing of value besides the M16A1s they're carrying.*

Stars. Melnikov (MacAllister): Now they are a pile of poor dead men. Too bad. I'm not interested in their guns.

Chandu: *One of them's got a wallet with a picture of him and his four kids in the frame.*

Serzh. Sokolov (Schmidt): Yawn.

Chandu: *Alright. Insertion has been COMPLETED. We're moving onto the FSLN RV.*

Chandu: *You step across puddles on your way there— a ten minute walk over the rainforest.*

Chandu: *The note marked this location as the spot. Proceed as you will.*

MSG Cillian F. MacAllister: What are these air force pussies waiting around for... let's go. No landmines right?

Chandu: *Not here.*

Capt. Nathaniel J. Rourke: Rourke looks at the steep elevation.

FSLN Guerrillero: A man turns a flashlight on and off once.

Capt. Nathaniel J. Rourke: We got any code?

MSG Cillian F. MacAllister: "Berezka."

FSLN Guerrillero: Three others come out of the woodworks, jogging.

FSLN Guerrillero: He raises a hand.

TSgt. Andrew S. Schmidt: Stands beside Cillian and grabs his rifle.

FSLN Guerrillero: "Bienvenidos a Nicaragua, camaradas..."

Chandu: *Serrano, as the Spanish interpreter, comprehends this. "Welcome to Nicaragua, comrades."*

TSgt. Rafael A. Serrano: He ups his chin, returning in Spanish, "Thank you. We're proceeding as planned." Serrano gives a look to the Russian interpreter behind him.

TSgt. Andrew S. Schmidt: Schmidt pulls close to Serrano.

FSLN Guerrillero: "Of course. I don't suppose you know Alberto, back at the city. I'm so glad you can speak our language. Not one of us speaks a pip of Russian."

FSLN Guerrillero: "Anyway, he told us to get you in position for the attack."

FSLN Guerrillero: "The way's clear, twenty minute hike at most."

TSgt. Andrew S. Schmidt: Schmidt just mutters something in Russian looking towards the FSLN men and back at his guys.

FSLN Guerrillero: They all seem happy to be getting the Soviet Union's support in their struggle.

Stars. Melnikov (MacAllister): Cillian nods, pretending to get it.

Serzh. Sadulaev (Serrano): "Lead on. Engage only after you hear us do it first."

Chandu: *As you all know, Nicaragua is currently under the dictatorship of the Somoza dynasty. A staunch ally of the US. These are his detractors, the Sandinistas.*

FSLN Guerrillero: He nods. "Follow us. Keep some spacing."

Chandu: *He's a good ranger. You close in on Puerto Cabezas, slip past an already-cut chainlink fence, and approach the intake...*

FSLN Guerrillero: "Right around this corner or the other one."

FSLN Guerrillero: "We counted three capitalist bastards guarding the intake. One of them looked American."

FSLN Guerrillero: "Make them fucking bleed. We'll do the same on our approach."

MSG Cillian F. MacAllister: I wasn't expecting them to literally take us right next to the outer wall. I won't kill them once they turn around, now.

TSgt. Rafael A. Serrano: "Alright. We'll move on our own from here. You mind returning to yours?"

FSLN Guerrillero: "Yes. Here's our frequency," he hands Serrano a paper slip. "Send a signal once you want us to initiate our approach."

FSLN Guerrillero: "A simple crackle will do, no need for a chat."

FSLN Guerrillero: "Good luck, and long live the worldwide revolution." He jogs off back towards the chainlink fence.

Capt. Nathaniel J. Rourke: "No wonder we're on the back foot in the war against communism. Let's get to work."

TSgt. Rafael A. Serrano: I'm passing the slip to Schmidt. "Their frequency. Make some noise when you want them coming in."

TSgt. Rafael A. Serrano: "There's at least three people pulling security, one of them American."

MSG Cillian F. MacAllister: These guys are all fucking chit chat chit chat. I take my APS out and round the corner, sneaking.

TSgt. Andrew S. Schmidt: Schmidt nods at Serrano and places it in his right breast pocket.

MSG Cillian F. MacAllister: I'm gonna sneak close to this wall, signalling the rest to HOLD.

MSG Cillian F. MacAllister: I can already see two.

MSG Cillian F. MacAllister: Any rolls etc.?

Chandu: *None necessary. You can see and overhear their conversation...*

Chandu: *What becomes obvious is that they're speaking in English, not Spanish.*

GARNET Sentry (3): "You ask me, he's better off with a bullet in the head."

GARNET Sentry (2): "And who's gonna do it? Not me, not never."

MSG Cillian F. MacAllister: As they speak I keep crouching and rounding this corner.

GARNET Sentry (3): "I don't know. Gah, forget it. Long as it's for a good cause."

MSG Cillian F. MacAllister: Can I drop prone to see what's past this truck?

MSG Cillian F. MacAllister: Warp my token to the other side I guess.

Chandu: *Sure. Loading...*

Chandu: *The checkpoint itself, with another sentry manning it. Roll ALERTNESS.*

MSG Cillian F. MacAllister: Can we scale the wall over there?

Chandu: *It's covered by the roof, you'd get on top of the building.*

MSG Cillian F. MacAllister: This is gonna be tricky.

Stars. Melnikov (MacAllister): Stars. Melnikov (MacAllister) rolls **Success** -> 20 (Rolling Alertness Target: 60%)

Chandu: *You can tell that this guy's got his cap over his eyes, and is leaning back on the chair.*

GARNET Sentry (1): Condition Changes Asleep

MSG Cillian F. MacAllister: Here's what I'm thinking, we go from underneath the truck and hug the wall all the way down.

Chandu: *You can tell the goys!*

MSG Cillian F. MacAllister: He raises a fall in line sign.

MSG Cillian F. MacAllister: Let's do this.

TSgt. Rafael A. Serrano: OK.

MSG Cillian F. MacAllister: Warp us there.

Chandu: *This is actually easier than I initially thought— you can crawl a decent length under the truck.*

MSG Cillian F. MacAllister: I'm hugging the wall and strafing to the gate.

Chandu: *Let's roll some LUCK throws.*

MSG Cillian F. MacAllister: 1

MSgt. Walter H. Givens: 1

SSgt. Isaiah M. Cole: 2

Capt. Nathaniel J. Rourke: 2

Chandu: *Everyone gets one, it's a total count.*

TSgt. Rafael A. Serrano: 2

TSgt. Andrew S. Schmidt: 1

Chandu: *Three 1s, three 2s. The distracted Caucasian soldier's going to roll at a disadvantage—he's facing that direction, but he's smoking and chatting along.*

Chandu: *This is going to be at a -40%.*

GARNET Sentry (3): GARNET Sentry (3) rolls **Failure** -> 28 (Rolling Alertness Target: 20%)

MSG Cillian F. MacAllister: So, garage door?

Chandu: *That's right.*

MSG Cillian F. MacAllister: Let's get into the guard shack.

MSG Cillian F. MacAllister: Cillian hears for the other side.

Chandu: *Givens and Cole are gonna use their time by aiming at the two outside.*

Serzh. Kuznetsov (Cole): Condition Changes Aiming

Stars. Gromov (Givens): Condition Changes Aiming

Chandu: *You don't hear anything but a radio faintly playing the last Mets game.*

MSG Cillian F. MacAllister: I'm going to choke this guard to death as he sleeps and leave him right there, with his cap still covering his face. If those two freak out, they can shoot.

MSG Cillian F. MacAllister: Locked?

Chandu: *Try the knob!*

MSG Cillian F. MacAllister: I do so, very softly.

MSG Cillian F. MacAllister: I peek my head in.

GARNET Sentry (1): He's snoring peacefully, alone in the checkpoint.

MSG Cillian F. MacAllister: Perfect. He's mine.

MSG Cillian F. MacAllister: Rolls?

Chandu: *He's helpless. You can execute him.*

MSG Cillian F. MacAllister: He's on a rolling chair right?

Chandu: *That's right.*

MSG Cillian F. MacAllister: I'll roll him a bit backwards so those two can't immediately see it, and wish him good night.

GARNET Sentry (1): Condition Changes Dead

MSG Cillian F. MacAllister: I didn't intend to leave blood but that was a gnarly noise.

MSG Cillian F. MacAllister: Is he visibly dead if I pull his cap over his eyes?

Chandu: *You could've stabbed through his chest while holding his mouth, so there's not a trail of arterial blood coming down from his throat.*

Chandu: *So he's not obviously dead.*

MSG Cillian F. MacAllister: Great, I'll roll him back where he used to be and grab his keys and radio, locking the door behind us once everyone's in.

Chandu: *You've got keys for this door right here.*

Chandu: *The one behind as well.*

MSG Cillian F. MacAllister: I'm waiting for everyone. Can they hit Search for anything that catches the eye?

Serzh. Sokolov (Schmidt): Serzh. Sokolov (Schmidt) rolls **CRITICAL SUCCESS!** -> 33 (Rolling Search Target: 40%)

Chandu: *"MAIN POWER SUPPLY" on this door.*

Chandu: *Givens and Cole are gonna move forward.*

MSG Cillian F. MacAllister: I'm skeptical. I'll hear past the door first.

MSG Cillian F. MacAllister: Is there a guard shift table here? I wanna know how many minutes we got until someone finds him.

Chandu: *You hear a generator softly trudging along. Intuition informs you that such a facility would have an auxiliary power supply, however— this certainly isn't the only one.*

MSG Cillian F. MacAllister: I imagined as much.

Chandu: *Sure, let's say they rotate with the second team (currently inside) every four hours. You've got twenty minutes from now for that to happen.*

MSG Cillian F. MacAllister: Right. I'm going in and setting up one of those small charges where it looks like it could do damage.

MSG Cillian F. MacAllister: With something like this it can probably fuck it up for good, though.

Chandu: *Motors are fragile things. We're taking a charge from Givens' possession.*

MSgt. Walter H. Givens: "All set. Remote's ready."

MSG Cillian F. MacAllister: Right. I'm locking this door on my way out before moving onto the next one, and obviously locking the door we just came in through.

MSG Cillian F. MacAllister: We can detonate all of them at once.

MSG Cillian F. MacAllister: We should be able to open this garage door from there right.

Chandu: *The garage doors are activated through wired controls, that's the inconvenience here.*

Chandu: *They're on this side of the wall.*

Capt. Nathaniel J. Rourke: I presume it will be loud as fuck.

TSgt. Andrew S. Schmidt: Can I do a last radio check before we move in

MSG Cillian F. MacAllister: I'm going to take out my AK and aim towards the door behind partial cover.

Chandu: *Let's call it fair, Schmidt. We can say forty minutes have passed.*

Chandu: *Tshhhck. Connected.*

MSG Cillian F. MacAllister: Can we kill these lights?

TSgt. Andrew S. Schmidt: Schmidt gets down on one knee again and speaks in a hushed tone.

Chandu: *Yup. Switch.*

TSgt. Andrew S. Schmidt: "Talon, this is Alpha. Support element in place. Proceeding into primary objective, how copy?"

Capt. Solomon Aulbuer: "Good copy on all, Alpha. Looking good so far. Groundside sends their regards."

Capt. Solomon Aulbuer: "Remember your rules of engagement and priorities as you proceed."

TSgt. Andrew S. Schmidt: "Solid copy on all. Alpha out."

Chandu: *I'm gonna do that real quick.*

MSG Cillian F. MacAllister: Let me rotate slightly.

Chandu: *So, what's the move now?*

MSG Cillian F. MacAllister: Open the gate.

Serzh. Sokolov (Schmidt): Condition Changes Aiming

Serzh. Kuznetsov (Cole): Condition Changes Aiming

MSG Cillian F. MacAllister: More lights inside, guessing we can't kill them.

Chandu: *With the outer gate shut, the inner doesn't make enough noise to alert the guys outside through the rain. And that's correct— these are emergency lights, the type you'd see in an underground parking lot.*

MSG Cillian F. MacAllister: I'm pulling out my APS back. I think the AKs would alert people.

MSG Cillian F. MacAllister: Peeking this corner first.

MSG Cillian F. MacAllister: Right. I'm gonna encroach from the closer side.

Chandu: *And here's where it goes down. We proceed on your go.*

MSG Cillian F. MacAllister: Let's.

MSG Cillian F. MacAllister: Since we're going underground will the AKs only alert people on the same Z?

Chandu: *That's right. The rifles are suppressed, but they're distinctive enough indoors.*

MSG Cillian F. MacAllister: I'll hang onto the APS a bit longer then.

MSG Cillian F. MacAllister: We're moving in two by two through these columns.

MSG Cillian F. MacAllister: Hold.

MSG Cillian F. MacAllister: Door, what does it say?

Chandu: *That says "GATE CONTROL".*

Capt. Nathaniel J. Rourke: There's a camera?

MSG Cillian F. MacAllister: I'm going to peek this corner.

Chandu: *For gameplay purposes, that camera is in fact not there. However, these DO exist. The caveat is that they must be watched live.*

MSG Cillian F. MacAllister: Where's he looking at?

Chandu: *He's looking...*

Chandu: *That's it.*

Chandu: *His weapon's on his sling, though.*

Chandu: *This guy's carrying a CAR-15 carbine. The ones outside only had handguns.*

MSG Cillian F. MacAllister: I'm going to signal to stack the fuck up and hold.

MSG Cillian F. MacAllister: Continuing to peek.

GARNET Rifle (1): "I think I'm requesting Eritrea for my next tour," he says, idly.

MSG Cillian F. MacAllister: Aren't these emergency lights? I'd expect a lighting advantage.

MSG Cillian F. MacAllister: If not this is where this gets sticky.

Chandu: *This is the guideline: while inside, THIS is fully illuminated...*

Chandu: *The rest are emergency lights.*

MSG Cillian F. MacAllister: Alright, then. I want the guy who set up the charge with me as the other remain stacked up against here so we can enter that room.

MSG Cillian F. MacAllister: What do I hear on the other side?

Chandu: *Nothing whatsoever.*

MSG Cillian F. MacAllister: Let's go in, slowly.

MSG Cillian F. MacAllister: Is this door powered?

MSG Cillian F. MacAllister: I do NOT want to be trapped here.

Chandu: *Nope. It's a normal, swinging door, operated with a handle.*

MSG Cillian F. MacAllister: This gave me an incredibly bad gut feeling.

MSG Cillian F. MacAllister: Alertness?

Chandu: *You can roll it, blind this time.*

Chandu: *This is a common sight, even in underground garages in the States. Remote gates have auxiliary controls additional to the main ones typically encountered at checkpoints.*

MSG Cillian F. MacAllister: Noises here?

Chandu: *None!*

Chandu: *It is, indeed, a remote opening mechanism.*

Chandu: *This controls the gates you stepped through a few minutes ago, though there's a third line.*

MSG Cillian F. MacAllister: What are the options, somewhere towards a lower level?

Chandu: *The third reads "MEDICAL STAGING ROOM AUX".*

MSG Cillian F. MacAllister: From what I see there is a "main" control for that that's most likely manned, right.

MSG Cillian F. MacAllister: It would be a bad idea to flip this.

Chandu: *That's what your intuition tells you, yes. There must be a guy at a booth— and it is quite possibly the same one tasked with watching the cameras.*

MSG Cillian F. MacAllister: Right then. Let's execute those two guys, they seem unaware and a nice APB shot to the face would be quiet.

MSG Cillian F. MacAllister: We're 6 on 2.

Chandu: *This camera is active. Let me draw its cone...*

Chandu: *It's fixed.*

MSG Cillian F. MacAllister: Guys seem outside it.

MSG Cillian F. MacAllister: Let's go, there aren't any other options.

Chandu: *The others can move.*

MSG Cillian F. MacAllister: The others are just 2 people, they were aiming at them.

MSG Cillian F. MacAllister: Cillian pulls the trigger aimed at the one looking at him, straight in the face.

Chandu: *Alright. Since this is six aiming on two, it'll be easy to resolve without excessive rolling. The rest fire upon MacAllister's trigger.*

Chandu: *An overwhelming amount of damage as shot by three pistols each. We can assume that at least two of those shots hit them square in the faces, under their helmets.*

GARNET Rifle (2): Condition Changes Dead Dead

MSG Cillian F. MacAllister: I'm going to sprint up to them and round that corner to see if there's anyone.

Chandu: *That's where you notice this camera— soon enough to sidestep out of its viewcone.*

MSG Cillian F. MacAllister: I'm dragging them behind the cars.

MSG Cillian F. MacAllister: Did it see the guy falling?

Chandu: *No way to know.*

MSG Cillian F. MacAllister: Okay, I'm backtracking and walking riight underneath this one so it can't see me.

MSG Cillian F. MacAllister: Actually there is a way to know. We grabbed that guy's radio no?

Chandu: *Sure, that's a possibility. Radio silence at this point.*

MSG Cillian F. MacAllister: I want two more with me and the rest to stack up against this wall and hold.

MSG Cillian F. MacAllister: We're walking right beneath this thing.

MSG Cillian F. MacAllister: Noises?

Chandu: *You hear shuffling steps from the door to your south.*

MSG Cillian F. MacAllister: I'm going to signal him to aim at the door and pull out my knife, telegraphing a grapple.

Capt. Nathaniel J. Rourke: Rourke aims at the door.

MSG Cillian F. MacAllister: I'll grab him as soon as he opens the door and stab him to shit on the ground.

Chandu: *We can prescind of the NVGs at this stage.*

Chandu: *Alright. You wait... and you wait...*

Chandu: *Nothing's moving now.*

Chandu: *You hear, however, a single crackle from the radio you took.*

Chandu: *Then two more.*

Chandu: *No speech, just like someone pressed on the PTT for a moment to produce the sound.*

MSG Cillian F. MacAllister: I'm going to crackle three times.

MSG Cillian F. MacAllister: They are probably life checking for everyone.

Chandu: *Alright. You hit three crackles.*

Chandu: *Nothing happens.*

MSG Cillian F. MacAllister: Perfect. I'll let this door swing open.

Chandu: *As you open it, Rourke and this guy get actions on each other instantly.*

Chandu: *On 2, Rourke fires first.*

GARNET Rifle (5): 1

Capt. Nathaniel J. Rourke: 2

MSG Cillian F. MacAllister: Make it fucking count...

Chandu: *You get the first shot. Use the combat helper.*

Chandu: *He's wearing a vest and a helmet, you can tell.*

MSG Cillian F. MacAllister: I think APS can long burst him for a guaranteed suppression.

MSG Cillian F. MacAllister: I'll maul him.

Chandu: *Yup, that can happen.*

Capt. Nathaniel J. Rourke: Aimed head since I was aiming?

Chandu: *That's right.*

Capt. Nathaniel J. Rourke: Aim & bodypart: Aimed, head. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

Kapt. Romanov (Rourke): Kapt. Romanov (Rourke) rolls **CRITICAL SUCCESS!** -> 11
(Rolling Firearms Target: 40% (60%-20%))

Chandu: *Oh My Mama*

Chandu: *Hit the rest of the rollz.*

Chandu: *Toggle on lethality, that's a...*

Kapt. Romanov (Rourke): Kapt. Romanov (Rourke) rolls **Failure** -> 46 (10 Damage) (Rolling LETHALITY For APS STECHKIN (2/2) / +SUP Target: 10)

Chandu: *That's a 20 damage total to his head.*

GARNET Rifle (5): GARNET Rifle (5) rolls 1d10 -> 7 (Draws a result from the Catastrophic Wounds Table table)

GARNET Rifle (5): Condition Changes Dead

Chandu: *Alright. Now it's everyone else's time to roll initiative.*

MSG Cillian F. MacAllister: "You're out, reload."

MSG Cillian F. MacAllister: I'm swinging my AK out.

Chandu: *You get to do it, you're in a good position. You get to act.*

Capt. Nathaniel J. Rourke: "Shut up."

MSG Cillian F. MacAllister: I'm swinging in from partial cover.

Chandu: *This guy's getting a shot on you.*

MSG Cillian F. MacAllister: Pause

MSG Cillian F. MacAllister: PAUSE.

Chandu: *mmmyes...?*

MSG Cillian F. MacAllister: It was a long burst, wasn't this guy in the suppression range?

MSG Cillian F. MacAllister: There is no way his OW is uninterrupted

MSG Cillian F. MacAllister: He was METER next to him!!!

MSG Cillian F. MacAllister: In fact he should probably be SUPPRESSED right now

Chandu: *CRIT SUCCESS: HE DOESN'T CARE SUCCESS: OW INTERRUPTED, NOT SUPPRESSED FAILURE: SUPPRESSED FUMBLE: SUPPRESSED*

GARNET Rifle (4): GARNET Rifle (4) rolls **Success** -> 62 (Rolling POW Target: 65%)

MSG Cillian F. MacAllister: Fair enough.

MSG Cillian F. MacAllister: Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

Stars. Melnikov (MacAllister): Stars. Melnikov (MacAllister) rolls **Success** -> 38 (Rolling Firearms Target: 60%)

MSG Cillian F. MacAllister: SUCCESS AT A -20%

Stars. Melnikov (MacAllister): Stars. Melnikov (MacAllister) rolls **Failure** -> 23 (5 Damage) (Rolling LETHALITY For AKMN (3/4) / +PSO-1 +SUP Target: 10)

MSG Cillian F. MacAllister: MSG Cillian F. MacAllister rolls 1d10 -> 10 (Draws a result from the Random Hit Location d10 table)

MSG Cillian F. MacAllister: Though it's a steel not a kevlar one so I'm skeptical it would do anything to rifles.

MSG Cillian F. MacAllister: In any case he's stacked with stun and practically dead.

Chandu: *Let's decide it with a luck roll. If you got direct hits, he's dead. If not, it's all grazes.*

GARNET Rifle (4): 1

Chandu: *Grazes, 5 damage.*

GARNET Rifle (4): GARNET Rifle (4) rolls 1d6 -> 6 (Draws a result from the Head Serious Wounds (5, 6, 7 Dmg) table)

GARNET Rifle (4): GARNET Rifle (4) rolls **Success** -> 48 (Rolling CON Target: 65%)

TSgt. Rafael A. Serrano: Alright, will I be able to move over Mac's shoulder and still act?

TSgt. Rafael A. Serrano: Foot movement type: Walk.

Chandu: *Ok... hit ya roll*

TSgt. Rafael A. Serrano: Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

TSgt. Rafael A. Serrano: That's gonna be... -10% for moving?

MSG Cillian F. MacAllister: -10 + -20 but LB so you'll suppress

GARNET Rifle (3): Their radios crackle. "RED ONE, RED ONE! LOOK TOPSIDE!"

Serzh. Sadulaev (Serrano): Serzh. Sadulaev (Serrano) rolls **Success** -> 6 (Rolling Firearms Target: 30% (60%-30%))

MSG Cillian F. MacAllister: Lethality

Serzh. Sadulaev (Serrano): Serzh. Sadulaev (Serrano) rolls **Failure** -> 24 (6 Damage) (Rolling LETHALITY For PKMN (10/10) / +NSP-3 +BPD Target: 10)

TSgt. Rafael A. Serrano: I swapped Bro

Chandu: *Let's look it over for now to avoid getting bogged down. It's 6 damage either way.*

Chandu: *Use the injury helper to roll a bodypart.*

TSgt. Rafael A. Serrano: TSgt. Rafael A. Serrano rolls 1d10 -> 4 (Draws a result from the Random Hit Location d10 table)

TSgt. Rafael A. Serrano: TSgt. Rafael A. Serrano rolls 1d6 -> 6 (Draws a result from the Abdomen Serious Wounds (5, 6, 7 Dmg) table)

GARNET Rifle (4): GARNET Rifle (4) rolls **Failure** -> 87 (Rolling CON Target: 65%)

SSgt. Isaiah M. Cole: Being a smart airman, he's hitting a DEX roll to switch to his AK.

Serzh. Kuznetsov (Cole): Serzh. Kuznetsov (Cole) rolls **Success** -> 48 (Rolling DEX Target: 60%)

MSG Cillian F. MacAllister: Talking is free right?

MSG Cillian F. MacAllister: I'm barking into the radio "What the fuck is going on?"

SSgt. Isaiah M. Cole: Next, since that was a **success**, he's aiming at that door up north.

GARNET Rifle (3): "Zulu twelve, en route. Frequency GAMMA." It cuts out abruptly.

Serzh. Kuznetsov (Cole): Condition Changes Aiming

MSG Cillian F. MacAllister: Enough, Blowing demo charges on main power supply.

MSG Cillian F. MacAllister: "Talking bout some enroute huh? Let's go loud."

MSG Cillian F. MacAllister: "They don't know where we are yet. Shoot those cameras."

Chandu: *The ground rocks and the lights stagger as it powers down. Soon enough, the emergency lights come on.*

Chandu: *Schmidt's shooting this one for free.*

Chandu: *This guy's going to clear his stun...*

GARNET Rifle (4): Condition Changes Stunned

Chandu: *A door is kicked in from up north.*

Chandu: *Since Cole's aiming at the door, this guy's surprise is voided. He's hitting a shot.*

SSgt. Isaiah M. Cole: Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

GARNET Rifle (3): Condition Changes Dead

MSG Cillian F. MacAllister: "Nice."

MSG Cillian F. MacAllister: "Clear the main corridor, they'll probably run to the first level, move in through the rooms."

MSG Cillian F. MacAllister: "They don't know where we are yet."

MSG Cillian F. MacAllister: "Close that door too."

MSgt. Walter H. Givens: "Dead end back at the garage, nothing to see."

Capt. Nathaniel J. Rourke: Rourke switches to the AK.

MSG Cillian F. MacAllister: "They are gonna run the fuck up through here soon, just listen."

Chandu: *What's next, Rourke?*

MSG Cillian F. MacAllister: "Close that damn door and get in."

MSG Cillian F. MacAllister: Did he not close that door???

Chandu: *No windows, just screens wherein the camera feed is displayed.*

MSG Cillian F. MacAllister: Can I take a talking action to call in the communists?

Capt. Nathaniel J. Rourke: I presume since they'll be coming from the corridor we should take cover behind the walls columns and cars and wait for them to come in.

Capt. Nathaniel J. Rourke: This is a good spot.

Chandu: *Well, Schmidt can do that by crackling the radio to signal them to begin their attack. Confirm?*

MSG Cillian F. MacAllister: EVERYONE IN THE ROOM, WE MOVE THROUGH THERE, LEAVE THE MAIN CORRIDOR.

MSG Cillian F. MacAllister: CONFIRM.

TSgt. Andrew S. Schmidt: He does as told. There'll be a small delay on the Sandinistas' attack as they get started.

Capt. Nathaniel J. Rourke: Any noise at the door?

Chandu: *No noise!*

Capt. Nathaniel J. Rourke: Can I peek it?

Chandu: *You can peek it and get it back closed with the rest of your action, sure.*

Capt. Nathaniel J. Rourke: "Another room, empty."

MSG Cillian F. MacAllister: "Hold a bead."

Chandu: *You've moved, but you can stay facing this way.*

Kapt. Romanov (Rourke): Condition Changes Aiming

MSG Cillian F. MacAllister: Stopping here.

TSgt. Rafael A. Serrano: Going to actually switch to my primary now since the jig is up.

Serzh. Sadulaev (Serrano): Serzh. Sadulaev (Serrano) rolls **Failure** -> 93 (Rolling DEX Target: 60%)

Chandu: *Go through with it, remain able to move 5 meters at this stage.*

TSgt. Rafael A. Serrano: Foot movement type: Walk.

MSG Cillian F. MacAllister: "Don't shoot that thing unless you have to for now."

MSG Cillian F. MacAllister: "They still don't know where we are."

TSgt. Rafael A. Serrano: "You got it."

MSG Cillian F. MacAllister: Can he close the door behind him and check those cameras?

Chandu: *Cole looks at the VERY alive but VERY injured GARNET trooper you guys just skipped, and raises his rifle.*

Serzh. Kuznetsov (Cole): Condition Changes Aiming

SSgt. Isaiah M. Cole: Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

Serzh. Kuznetsov (Cole): Serzh. Kuznetsov (Cole) rolls **Success** -> 27 (Rolling Firearms Target: 60%)

GARNET Rifle (4): Condition Changes Dead

TSgt. Andrew S. Schmidt: Foot movement type: Run.

Serzh. Sokolov (Schmidt): Serzh. Sokolov (Schmidt) rolls **Success** -> 8 (Rolling DEX Target: 60%)

MSG Cillian F. MacAllister: I'm gonna nod at him to hold a bead on that door.

Capt. Nathaniel J. Rourke: Aiming.

Chandu: *Givens is gonna stack up— getting crowded in the next room is a bad idea.*

MSG Cillian F. MacAllister: I'm going to listen in.

Chandu: *Shuffling footsteps, things being moved.*

MSG Cillian F. MacAllister: Can I look from below? Enough space?

Chandu: *No way!*

MSG Cillian F. MacAllister: Keyhole?

Chandu: 1

Chandu: *No keyhole on this one. Looks like a simple push/pull door.*

MSG Cillian F. MacAllister: This is a toughie. Can we wait until the guerillas start attacking from the surface?

MSG Cillian F. MacAllister: If loud fire breaks out I wanna make sure it first does above.

Chandu: *They're attacking the logistics hub where the National Guard are stationed— not like you'll hear anything from here. This facility isn't in their path.*

MSG Cillian F. MacAllister: Alright fuck this. Frag out in this room. Not exposing myself.

MSG Cillian F. MacAllister: Dead center.

Chandu: *Let's just hit the ATHLETICS roll for that.*

Chandu: *No modifiers.*

Stars. Melnikov (MacAllister): Stars. Melnikov (MacAllister) rolls **Success** -> 42 (Rolling Athletics Target: 60%)

Chandu: *Here?*

MSG Cillian F. MacAllister: Yeah.

Chandu: *It's powered down, though, that much you can tell.*

MSG Cillian F. MacAllister: This is a fucking death trap. Access ladder here?

Chandu: *There is a ladder you can climb down yup. Then you'd have to force open the elevator door on the next sublevel.*

MSG Cillian F. MacAllister: This thing won't power on and kill us if we do that right?

MSG Cillian F. MacAllister: And why shouldn't we just charge the door next to it?

Capt. Nathaniel J. Rourke: Not by ladder probably.

Capt. Nathaniel J. Rourke: If we were rappelling, on the other hand.

Chandu: *The ladders are built in such a way that you figure the elevator would skip you over if you hugged it close, if that makes any sense.*

MSG Cillian F. MacAllister: Bad gut feeling. I wanna charge the wall next to this "heavy latch", if you can't go through it, usually you can make a hole around it.

Chandu: *To be clear: you CAN blow the blocked door open with plastic explosives.*

MSG Cillian F. MacAllister: Before that can we see what's behind that door?

Chandu: *Behind that door: crates upon crates of living supplies. Food and etc.*

MSG Cillian F. MacAllister: Ok, let's hit this.

Chandu: *Construction stuff too. Moving on, Serrano can plant the charges at no cost. He does so...*

Chandu: *Serrano, edit your plastic explosives: subtract 1x.*

MSG Cillian F. MacAllister: They might be getting desperate at this point. Masks on.

TSgt. Rafael A. Serrano: Done.

Unknown (MacAllister): Ok let's push.

Chandu: *Loading descent...*

Chandu: *not sure why that is public.*

Unknown (MacAllister): Rounding this behind cover.

Chandu: *Go ahead and move.*

Unknown (MacAllister): I want to smoke out.

Unknown (MacAllister): Someone do that for me?

Unknown (MacAllister): This opens to a large room and we are in the dead center.

Chandu: *Cole can get it done.*

Chandu: *Additional to the smoke— it looks like you made the right call by putting your masks on.*

Unknown (MacAllister): I'm gonna move up to the edge- what's it?

Chandu: *CS gas is flowing through the automated dispersal system.*

Unknown (MacAllister): Takes one to know what a cornered dog fights like.

Chandu: *Communication is severely limited while wearing the Soviet mask, by the way. Focus on hand signals and gestures.*

Chandu: *You can proceed.*

Unknown (MacAllister): I'm pushing up to the edge.

Chandu: *As you make eye contact with this guy, he raises his shotgun at you— but not to shoot.*

Chandu: *This is going to be an UNARMED COMBAT check. The rest can be behind you for this.*

Unknown (MacAllister): I'm fine with that. I want to grab, drag this guy prone with me on the ground and have the rest shoot over my head & throw grenades into the room over my head like its the last ten seconds of their life.

Unknown (MacAllister): Which it will be if they don't.

Unknown (MacAllister): Unknown (MacAllister) rolls **Failure** -> 65 (Rolling Unarmed Combat Target: 60%)

GARNET Rifle (2): GARNET Rifle (2) rolls **Success** -> 43 (Rolling Unarmed Combat Target: 60%)

Unknown (MacAllister): I just want him on the ground, he can be on top, I don't care.

Chandu: *He's going to GRAPPLE you this turn. You're a strong guy, and so is he. Your resistance is strong enough for the two of you to go down.*

GARNET Rifle (2): Condition Changes Prone

Unknown (MacAllister): Condition Changes Prone

Unknown (MacAllister): "SSHOOOOOTTTT!!!"-

Unknown (Schmidt): Unknown (Schmidt) rolls **Failure** -> 86 (Rolling Athletics Target: 60%)

Unknown (Schmidt): Unknown (Schmidt) rolls 2d8 -> 8 (Draws a result from the Downgraded Slow Projectile Deviation d8 table)

Chandu: *So it's going SE, 6M. It's bouncing off the wall and landing on this guy's feet, basically.*

GARNET Rifle (1): "MOVE!"

Unknown (MacAllister): Cole should start hosing it down to suppress GR2. Also how did that guy see the frag come towards him?

Chandu: *He heard it bounce off the wall and roll to his feet... it's not that hard.*

Chandu: *He's shooting down line, over everyone's shoulders.*

Unknown (Cole): Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

Unknown (Cole): Unknown (Cole) rolls **Success** -> 18 (Rolling Firearms Target: 60%)

Chandu: *That'd be a suppression roll for both Mac and the guy grappling him, but since they're busy with each other— they'll stay unsuppressed.*

Chandu: *The one closest will be affected.*

GARNET Rifle (2): Suppression (65): 54 - **Success**. Effects: N/A.

Unknown (MacAllister): Serrano needs to likewise let it rip.

Unknown (Serrano): Long burst to suppress...!

Unknown (Serrano): Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, long burst. Speed & size: ≤ Normal, regular.

Chandu: *Hit the roll, let's see how effective it is.*

Unknown (Serrano): Unknown (Serrano) rolls **Success** -> 9 (Rolling Firearms Target: 30% (60%-30%))

GARNET Rifle (2): Suppression (65): 31 - **Success**. Effects: N/A.

Unknown (MacAllister): bullshit

Unknown (MacAllister): 2 LBs no effect?

Chandu: *He's standing further away from the corner than it'd typically make him afraid to be hit. However, the volume of fire (and the success) is going to proc a SUPPRESSION status.*

GARNET Rifle (2): Condition Changes Suppressed

Chandu: *And he's going for the closest cover.*

Unknown (MacAllister): Before mine can we handle the 2 others with us?

Unknown (MacAllister): One could run up and throw a grenade at the corner he just went against considering the other one went the exact opposite direction.

Chandu: *That'd be skipping over 4 enemy turns. Not this time.*

Unknown (MacAllister): Alright. I'm gonna rip his mask off.

Chandu: *Originality! This is still a struggle, you'll both hit Unarmed Combat.*

Unknown (MacAllister): Unknown (MacAllister) rolls **Success** -> 13 (Rolling Unarmed Combat Target: 60%)

GARNET Rifle (2): GARNET Rifle (2) rolls **CRITICAL FAILURE!** -> 77 (Rolling Unarmed Combat Target: 60%)

Unknown (MacAllister): Can I bang his head against the floor on that?

Unknown (MacAllister): Until he dies.

Chandu: *Not until he dies, but you can have the upper hand and bash him a couple of times. Hit 2 damage rolls for unarmed.*

Unknown (MacAllister): 4

Unknown (MacAllister): 6

Chandu: *Apart from that, you rip his mask clean off. He's coughing, his eyes are closing involuntarily.*

Unknown (MacAllister): 2+4

Unknown (MacAllister): 6 to head?

Chandu: *Yes. Let's see.*

GARNET Rifle (2): GARNET Rifle (2) rolls 1d6 -> 3 (Draws a result from the Head Serious Wounds (5, 6, 7 Dmg) table)

GARNET Rifle (2): GARNET Rifle (2) rolls **Success** -> 10 (Rolling CON Target: 65%)

Chandu: *We move on.*

GARNET Rifle (1): GARNET Rifle (1) rolls **Failure** -> 73 (Rolling Athletics Target: 60%)

GARNET Rifle (1): Foot movement type: Run.

Chandu: *These two guys are running. Their aim is going off, consequently.*

Chandu: *This guy's choking on CS gas. If he passes out from this, he'll be unconscious.*

Chandu: 6

Chandu: *Natural 6, we'll accept it. You can keep bashing his head onto the floor if you want.*

Unknown (MacAllister): I need to make it quick. No matter who he is working for he doesn't deserve being captured or suffocated to sour gas here.

Unknown (MacAllister): I'll finish him.

GARNET Rifle (2): Condition Changes Dead

Chandu: *With an unnerving crack, he goes limp. Blood starts pooling up under his head.*

GARNET Rifle (3): Condition Changes Partial Cover

GARNET Rifle (2): Condition Changes Suppressed

Unknown (MacAllister): I'm gonna point out a finger for him to throw a nade. That corner.

Chandu: *Corner appears clear, but he's rolling it downrange.*

Unknown (Givens): Unknown (Givens) rolls **Failure** -> 67 (Rolling Athletics Target: 60%)

Unknown (Givens): Unknown (Givens) rolls 2d8 -> 6 (Draws a result from the Downgraded Slow Projectile Deviation d8 table)

Chandu: *south, 1 meter. Let's see.*

Chandu: *That works.*

Unknown (MacAllister): He should also be doing something similar towards the other end again, walking over me in the process.

Unknown (Rourke): Right side you mean?

Unknown (MacAllister): Yup.

Unknown (MacAllister): As far as possible.

Chandu: *Red circles are the grenades that'll ignite on the following turn.*

Unknown (Rourke): Bottom right corner?

Unknown (MacAllister): No top.

Unknown (Rourke): Or just straight right?

Unknown (Rourke): Okay, I'm flinging one there.

Chandu: *Hit Athletics, unmodified.*

Unknown (Rourke): Unknown (Rourke) rolls **CRITICAL FAILURE!** -> 100 (Rolling Athletics Target: 60%)

Chandu: *You're going to throw it— but don't worry. You'll just not prime it whatsoever... you'll have to pick that up later. If you can find it.*

Chandu: *Must be the nerves. We're skipping the 1d2 on that.*

Unknown (MacAllister): "I don't think you pulled on that man-" He mutters something out through his mask.

Chandu: *Schmidt is going to prep to push with Rourke or Givens.*

Unknown (Rourke): "I thought I did, busted hand," he mumbles incomprehensibly through the gas mask.

Chandu: *Oh wait, the grenades.*

Unknown (Rourke): Unknown (Rourke) rolls **Failure** -> 84 (12 Damage) (Rolling LETHALITY For F1 GRENADE (1X) Target: 15)

Chandu: *That's for Givens' nade.*

Unknown (Serrano): Foot movement type: Walk.

Unknown (MacAllister): I nod at Serrano to break through and lay fire northeast.

Chandu: *You can't see outside of this area, by the way.*

Chandu: *You can guess the room's layout, but it's just that: guessing.*

Unknown (MacAllister): Just send the goddamn thing.... rip it

Unknown (Serrano): Yeah I can't... I'm firing anyway.

Chandu: *Specify the angle you're shooting at.*

Unknown (Serrano): I'll draw a cone.

Chandu: *You're within suppression range, but not kill/shrapnel range.*

Chandu: *You can try waking him up. Let's see.*

GARNET Rifle (1): GARNET Rifle (1) rolls **Failure** -> 97 (Rolling CON Target: 65%)

Chandu: *Nope, he's out cold.*

Unknown (MacAllister): Is there any kind of special protective equipment on him?

Chandu: *On his belt pouches, you find a dosimeter.*

Chandu: *Nothing on it yet. It's not kicked up.*

Unknown (MacAllister): I'm gonna turn it on.

Unknown (MacAllister): Are they going to sterilize this place using radiation? That's NOT GOOD.

Chandu: *We're proceeding to zlevel 3.... LABORATORIES.*

Unknown (MacAllister): Can everyone take a moment to reload before we go in?

Chandu: *Yes. Parsing.*

Unknown (MacAllister): This is the deepest Z-level right?

Chandu: *There's one further down, and the semiotics read.... 'CONTAINMENT'.*

Chandu: *For a mercy, the 'lobby' is clear.*

Chandu: *The doors to your sides are shut. You can head down or clear this level.*

Unknown (MacAllister): I'm going to drop a smoke right where we stand before we get shot up from both sides like we almost did in a certain Vietnamese house.

Unknown (MacAllister): Three with me, three to the other side. I want the MG with me.

Chandu: *That's Schmidt's smoke consumed. Stack up at will, everyone.*

Chandu: *By "other side" did you mean the other door?*

Unknown (MacAllister): "Serrano, send it before we open this shit."

Chandu: *The doors are locked, just so you know. This'll take 4x breaching charges.*

Chandu: *WE FINISH THIS TOMORROW SAME TIME*

LAZARETTO SESSION 2

September 7, 1968

Unknown (MacAllister): "BLOW IT!!!"

Chandu: *Doors go out, Serrano shoots... Hit Milsci (Land), Serrano.*

Unknown (Serrano): Unknown (Serrano) rolls **Success** -> 39 (Rolling MilitaryScience (Land) Target: 60%)

Chandu: *Now make TWO Lethality rolls.*

Unknown (Serrano): Unknown (Serrano) rolls **Failure** -> 78 (15 Damage) (Rolling LETHALITY For PKMN (10/10) / +NSP-3 +BPD Target: 10)

Unknown (Serrano): Unknown (Serrano) rolls **Failure** -> 46 (10 Damage) (Rolling LETHALITY For PKMN (10/10) / +NSP-3 +BPD Target: 10)

Malformed Freak (6): Malformed Freak (6) rolls **Failure** -> 98 (Rolling CON Target: 75%)

Malformed Freak (6): Condition Changes Unconscious

Chandu: *Alright. Simultaneously to Serrano's fire, you hear shooting from the room to the LEFT. It's not strictly directed at you.*

Malformed Freak (14): Condition Changes Dead Dead

Chandu: *It dies down shortly after. Nothing but the PA alarm now.*

Unknown (MacAllister): Holy shit, are they north of that side? Did I hear that?

Chandu: *Yup, that's an easy distinction to make for you guys.*

Unknown (MacAllister): There are enough guns trained on the biofreaks I'm throwing a grenade.

Unknown (MacAllister): Unknown (MacAllister) rolls **CRITICAL SUCCESS!** -> 33 (Rolling Athletics Target: 60%)

Chandu: *You're in turn order, hold that action until Serrano's is done.*

Chandu: *Save that crit.*

Unknown (MacAllister): "NORTH!"

Unknown (MacAllister): I want him to keep blasting northward.

Unknown (Serrano): Another land nav roll?

Chandu: *Hit it.*

Unknown (Serrano): Unknown (Serrano) rolls **Success** -> 10 (Rolling MilitaryScience (Land) Target: 60%)

Chandu: *Now hit a Lethality roll.*

Malformed Freak (11): Malformed Freak (11) rolls 1d10 -> 6 (Draws a result from the Catastrophic Wounds Table table)

Unknown (MacAllister): That was a crit, I want my intuition to guide that grenade right at the foot of the guy that just shot.

Chandu: *It's north and far down the hall, but you've no way to tell what's there—you're guiding yourself by the sound. It'll go like...*

Chandu: *Make a Luck roll.*

Unknown (MacAllister): 2

GARNET Rifle (1): "YO!" You hear yelling across the hall.

Chandu: *The complication is that they're through smoke. Make a Miscli (Land) roll, Cole.*

Unknown (Cole): Unknown (Cole) rolls **CRITICAL FAILURE!** -> 100 (Rolling MilitaryScience (Land) Target: 60%)

Unknown (Cole): 1d2?

Chandu: 2

Chandu: *That's just a normal failure. The smoke cloud is still too thick, you can only make out silhouettes— your shot will have a -20% modifier to it due to poor visibility.*

Chandu: *Choose your target and your action.*

Unknown (Cole): to be clear i don't know where tf anyone is are we shooting out of LOS

Unknown (Cole): so i can only see the biofreaks?

Chandu: *For now, yup. And two silhouettes lying down on the floor in front of them.*

Unknown (Rourke): Roger. East Corridor North?

Unknown (Rourke): I'm quickly peeking past and tossing it there.

Chandu: *Otherwise it's a blind throw.*

Unknown (Rourke): Unknown (Rourke) rolls **Success** -> 17 (Rolling Athletics Target: 60%)

Unknown (Rourke): Toss it.

Chandu: Chandu rolls 2d8 -> 10 (Draws a result from the Slow Projectile Deviation d8 table)

Chandu: *That's EAST, 4M. It's bouncing off the wall and moving...*

Malformed Freak (5): Condition Changes Dead

Unknown (MacAllister): Can I have Serrano flow in with me?

Unknown (Rourke): Are the grenade circles still relevant or did they blow?

Chandu: *All done.*

Chandu: *Can you paint two lines for the route you guys are each using to enter the room simultaneously?*

Unknown (MacAllister): I'm gonna just round this corner for partial towards the north first.

Unknown (MacAllister): I'll nod and then he'll peek right next to me.

Chandu: *That makes sense. You can do this together.*

Unknown (Serrano): I'm loyal to my capo.

Unknown (MacAllister): One more inch.

Unknown (Serrano): Condition Changes Aiming

Unknown (MacAllister): I can't fully see.

Chandu: *That's that.*

Unknown (MacAllister): Okay, I want him moving up here and peeking that corner.

Unknown (MacAllister): BEHIND PARTIAL.

Chandu: *You can make that movement while walking at -10% weapon ability, Serrano.*

Unknown (Serrano): OK. Peeking while remaining in partial.

Chandu: *That's good enough. You're staying there.*

Unknown (MacAllister): I'm gonna raise a finger for Cole to go peek that corner.

Chandu: *He'll get to it in his turn. Go ahead with yours.*

Unknown (MacAllister): I wanna strafe up here.

Chandu: *Should be good with a jog.*

Unknown (MacAllister): I'll stop right next to the door and remain behind the wall for cover.
Fuck jog can I just plain run?

Unknown (MacAllister): I might need to interrupt an OW on the way there.

Chandu: *Go ahead, apply the fitting penalty to your weapons roll.*

Unknown (MacAllister): Yeah, if I shoot.

Unknown (MacAllister): I wanna stop behind the PC, yeah, and LB the fuckers for -40%.

Chandu: *Run the helper for that. They see you.*

Unknown (MacAllister): Unknown (MacAllister) rolls **Failure** -> 82 (10 Damage) (Rolling LETHALITY For AKMN (3/4) / +PSO-1 +SUP Target: 10)

Unknown (MacAllister): Unknown (MacAllister) rolls 1d10 -> 10 (Draws a result from the Random Hit Location d10 table)

Chandu: *As such, you're taking spall damage for 1HP.*

Chandu: *You get to act now, you jogged here. Your response roll (if you choose to) is at -20%.*

Unknown (Cole): That'd make a LB -40 riight

Chandu: *Hit the helper. It stays able to suppress in any case.*

Chandu: *He's running WEST in HIS turn.*

Unknown (Rourke): Who was Schmidt popping at?

Unknown (Rourke): I'm going to shoot at the malformed freak.

Chandu: *Act normally. Since you're in charge of the situation, hit a DEX for that AIM to apply when spinning it.*

Unknown (Rourke): Givens needs to start pushing in North once I pop the freak.

Dr. Mark Simmons: "HEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEEELP!!!!!!!!!!!!!"

Unknown (Givens): He's going to see what the hell that is.

Unknown (MacAllister): I'm preparing to throw a white phosphorus down where he just ran as I wave over Serrano across me to LB this door, if there are multiple people in there we can logically push only one end.

Unknown (Serrano): Foot movement type: Walk.

Unknown (Serrano): Land nav Sir?

Chandu: *By the way, everyone: you can rotate your tokens instantly with your mouse by holding O.*

Chandu: *So that's within the 4m radius, meaning...*

Unknown (Serrano): Serrano thumbs at the room behind himself, suggesting to check it.

Unknown (MacAllister): I'm gonna nod against it, I'm looking at Cole to keep aiming down there and wait for us.

Unknown (MacAllister): We'll bust this door down and go in for a decisive breach, there are many back where they are.

Unknown (Cole): Meanwhile I want to single shot that last GARNET goon to finish him.

Chandu: *It's valid.*

Unknown (Cole): Aim & bodypart: Not aimed, no bodypart. Attachments: No attachment(s). Fire rate & range: Short range, single shot. Speed & size: ≤ Normal, regular.

GARNET Rifle (1): Foot movement type: Run.

Unknown (Rourke): I want to get up to the scientist they found with Givens and Schmidt.

Chandu: *20 meters running, you might be able to get there.*

Unknown (Rourke): Foot movement type: Run.

Unknown (Rourke): I meant Dr. Bazinga.

Dr. Mark Simmons: He's crouched down, holding his head. There are bullet impacts of the bulletproof glass.

Chandu: *You can infer that this is LVL. 8 bulletproof glass— it was Serrano's PKM that got at it through the walls behind you.*

Chandu: *Not pierced.*

Unknown (Rourke): I knock at the glass loudly. "Where's the fucking nazi?"

Dr. Mark Simmons: "YOU HAVE TO GET ME OUT OF HERE!"

Dr. Mark Simmons: Condition Changes Terrified Suppressed

Unknown (Rourke): "Tell me where the German is and we'll get you out."

Dr. Mark Simmons: Dr. Mark Simmons rolls **Failure** -> 68 (Rolling POW Target: 50%)

Dr. Mark Simmons: "He's down in the containment level! BUT you're not getting through all the security holding him!"

Dr. Mark Simmons: "Plus, they're opening the wards. WE HAVE TO GET OUT OF HERE IMMEDIATELY."

Dr. Mark Simmons: "I'll do anything for Russia! I don't care! Just get me out!"

Unknown (Rourke): Rourke is thinking that this is the next best thing to getting the German, and it might be a good time to cut our losses and get this dumb fuck out with us.

Unknown (Rourke): "You got a gas mask? Any radiation protection?"

Dr. Mark Simmons: He's wearing an M17 gas mask right now.

Dr. Mark Simmons: "The radiation suits are down in containment, inside the security checkpoint."

Unknown (MacAllister): I'm watching it go down from the shot-through door.

Dr. Mark Simmons: "Security's probably hogging them all to themselves now."

Unknown (Rourke): "Can you get through to the south?" I whistle as loudly as I can through this mask to get Given's attention and sign him to hold fire.

Unknown (Rourke): Schmidt's, I mean.

Dr. Mark Simmons: "Yeah.... that's going to be a problem. The only way I'm getting out of here through the lockdown is through this door." He points back.

Dr. Mark Simmons: "And I really don't want to go in there."

Dr. Mark Simmons: "What do I do?"

Dr. Mark Simmons: "Wait, did you study in the States? How's your English so good?"

Unknown (Rourke): Do we have any breaching charges left? Will it blow the glass?

Dr. Mark Simmons: "Gah, forget it."

Unknown (Rourke): "Good answer."

Chandu: *Schmidt currently has 2x plastic explosives in his inventory. These gates do look breachable.*

Chandu: *He's got enough Demo to apply them on his own, though each is going to take one of his turns.*

Unknown (Rourke): "We'll try to get you through from down the corridor. Anyone in that door to the right of you?"

Chandu: *That one?*

Unknown (Rourke): Unless that goes nowhere useful.

Dr. Mark Simmons: "This one right here's just the standby decontamination area. It's empty."

Dr. Mark Simmons: "They.... those things..." He looks back.

Dr. Mark Simmons: "They're all there."

Dr. Mark Simmons: "You do NOT want to let them out."

Unknown (Rourke): "The Decon leads to the southern corridor?"

Dr. Mark Simmons: "There's three doors, counting this one."

Unknown (Rourke): "All airtight and on lock, I presume."

Chandu: *Meaning 3 turns, and Schmidt and Givens' 3x joint explosives being consumed.*

Dr. Mark Simmons: "Ayup."

Unknown (Rourke): The BP glass is completely impenetrable by explosive?

Chandu: *You could give it a try. The PKM fire left its marks on it.*

Chandu: *You've got enough Milsci to tell that it'll blow with a plastic explosive. Good thinking.*

Chandu: *What's the call? Givens has a single charge, south of you.*

Unknown (Rourke): "Get in the corner. We're blowing you out."

Chandu: *He complies.*

Unknown (Rourke): "SCHMIDT!", Rourke whistles.

Chandu: *Givens is closer, Schmidt will stay holding the corner. He's running up with the charge.*

Chandu: *He sets it up...*

Unknown (Rourke): "Get as close to the wall and ground as you can. Cover your ears. Blow it when ready."

Chandu: *It's blown.*

Chandu: 2

Chandu: *And... the other locks are unaffected. Good.*

Chandu: *Simmons is going to follow this same turn.*

Chandu: *Since it's a new round, the following is going to happen.*

Chandu: *The faithful soldier cracked open those two airlocks as his last action. That means....*

Chandu: *You hear shuffling footsteps. Some are more hurried than others.*

Unknown (MacAllister): I'm gonna make this fast.

Unknown (MacAllister): Serrano, over there aimed down the lower corridor. Cole: retreat. Me: Run up to Rourke for a WP.

Unknown (Serrano): Where WERE the airlocks again? But yeah, I'm taking aim.

Chandu: *The airlocks are on the opposite side of your corner, where Cole's looking.*

Unknown (Serrano): OK. I figured you wanted me to just aim. I'll walk first.

Unknown (Serrano): Foot movement type: Walk.

Chandu: *This smoke will have dissipated by now.*

Unknown (Serrano): Unknown (Serrano) rolls **Failure** -> 95 (Rolling DEX Target: 60%)

Chandu: *Hit the full move up to the corner, it's close enough for a jog.*

Chandu: *No further actions.*

Unknown (MacAllister): Alright he's positioned southside to cover for our escape I'm gonna run to Rourke to get the nade.

Unknown (MacAllister): "I need a WP."

Unknown (MacAllister): "Now."

Unknown (Rourke): Rourke passes one.

Unknown (Rourke): "Catch."

Unknown (MacAllister): I'll push this.

Unknown (MacAllister): Unknown (MacAllister) rolls **Success** -> 52 (Rolling Athletics Target: 60%)

Unknown (MacAllister): I can't move any further.

Chandu: *It's a -40% from gear, so you're staying. Next up...*
